# Ontario County Public Health

November 2023

Greetings from the Ontario County Rabies Program!

Because we have documented rabies in our county, New York State Law requires every dog, cat and ferret at least three months of age be vaccinated against rabies at all times. Ontario County Public Health provides six free rabies clinics throughout the year.

These free clinics provide an opportunity for residents to have their pets vaccinated against rabies without the burden of cost.

Enclosed is a copy of our 2024 Free Rabies Prevention Clinic schedule. It would be wonderful if the schedule could be posted in a highly visible area within your establishment to get the word out to our residents.

If you would like to receive this document electronically, please call 585-396-4890 or email [Catherine.Cunningham@ontariocountyny.gov](mailto:Catherine.Cunningham@ontariocountyny.gov).

Many thanks,

Catherine Cunningham RN BSN
