Justin Steinbach (Chair for the Group) took over with a presentation explaining what the group has accomplished to date and where they hope to see us moving forward with a completed Comprehensive

Plan for the future of the Town of Bristol. The presentation will be posted on the town webpage townofBristol.org along with draft goals and objectives the committee have compiled to date.

The attendees had the opportunity to speak with the Group members as they were stationed at large copies of the areas of concern in the document regarding: Agriculture, Community Character/Facilities and Services, Economic Development, Environment/Natural Resources, Housing, Infrastructure and Recreational Resources. This provided an opportunity for feedback from the attendees and that along with comments provided from the Planning Board, ZBA and Town Board will be looked at the July meeting of the Comprehensive Group so they can do the final revisions and polish before presenting it to the Town Board to proceed with the final steps to get the document to a public hearing and vote from the Town Board for adoption of the new Comprehensive Plan.

Respectfully submitted,

Sandra Riker
