

Bristol Historic Home and Business Tour Proposal

Bristol is full of beautiful, historic homes that deserve to be recognized for the owners' hard work in keeping them in showcase condition. On October 17, the Ontario County Historical Society is sponsoring a county-wide fall foliage, business promotion, and historic site tour and the Bristol Historical Society Building on Rte. 64 in Bristol Center, next to the cemetery, will be one of the stops. A historic Bristol House Tour on this same date could be an educational and FUN activity for you and the local history fans.

If your home was built before 1850 you qualify for inclusion in this event. Your participation could be as minimal as having your home listed on the map with information provided by Bristol historical records (or yours), or it could be an open house for a few hours that afternoon. This open house could be just exterior, interior and limited to one room, or a tour of the interior at your discretion. If you are interested in participating in any respect, could you please contact me?
