\_\_\_\_\_

The Town, County and or Highway Superintendent must be called 72 hours prior to hauling onto a highway.

Best Management Practices Information

If the harvest area has a slope of 15% for more than 200 feet or a stream is in the harvest area, describe the best management practices (BMPs) applied to the harvest area. BMPs are presented in the NYS Forestry *Best Management Practices for Water Quality Field Guide*. Identify the approximate location of these best management practices on the site map provided with the application.
